SUMMARY

Accomplished **Data Engineer** offering over **6+ years of expertise** in architecting robust data infrastructures and automation frameworks. Proficient in leveraging **Snowflake, dbt, Kestra, and PySpark** to engineer high-scale pipelines and impactful **Power BI** analytics that drive enterprise value.

WORK EXPERIENCE

Woodside Energy India, Bengaluru - *Data Engineer*

May 2026 - present

- Designed and deployed a production-grade Kestra-based ingestion framework to extract data from APIs into Snowflake, supporting full, delta, and ad-hoc load capabilities.
- Ingested and processed 20+ million records, implementing scalable data loading patterns, schema drift handling, and operational monitoring.
- Developed dbt transformation models to flatten complex data structures and build curated, business-ready data views for self-service analytics.

Flora Food Group, Bengaluru - *Infrastructure Automation Lead*

June 2025 - April 2026

- Lead a Generative AI team to build and deploy a Copilot Studio-based conversational AI for 4,000+ employees, delivering 96% response accuracy, **<30-second response times**, and **<1% hallucination** for HR and procurement queries.
- Built a secure internal Python artifact repository in **Azure DevOps** with automated package testing and **OSV-based vulnerability checks**, improving code security, accelerating package delivery, and standardizing reusable components across automation and data teams.

Shell India Market Private Limited, Bengaluru - *Data Engineer*

February 2023 - May 2025

- Built automated **Azure Databricks** and **ADF pipelines** using PySpark and Delta Lake to track application metrics, powering real-time Power BI dashboards and driving a 10% portfolio reduction
- Achieved a cost-saving of **\$830K** within Downstream IT by conducting insightful and actionable data analysis using **Pyspark, Azure SQL and PowerBI**, and implementing automated reporting.
- Implemented a PowerApps–Power Automate–Power BI solution that automated project workflows and enabled a **40% reduction** in project management team size.

Shell India Market Private Limited, Bengaluru - *Software Engineer*

September 2020 - January 2023

- Implemented **Python** scripting to automate the validation of access for over 6500 network devices, ensuring over **97% access validation accuracy**. This automation resulted in a significant saving of over **210 man-hours of work**.
- Automated network health checks, including ping, traceroute, and other basic diagnostics, to run during downtime and deliver results directly to **ServiceNow** tickets, **reducing reliance on L1 contract engineers by 50%** and optimizing resource allocation.
- **Reduced** reliance on contract resources by **3%** by integrating API and ensuring seamless integration of **ClearPass** and **MoogSoft** with **ServiceNow**, streamlining automation processes.

Keysight Technologies, Kolkata - *Research Intern*

January 2020 - June 2020

- **Increased QA testing efficiency by 90%**, and reduced process time from **3 hours to 30 minutes**, by building a **Python** script-based solution for QA testing.
- Leveraged **WireShark** to capture real-world production traffic and developed two mock applications in **Ruby** to simulate realistic load during performance testing.

Pickcel, Bengaluru - *Intern*

June 2019 - June 2019

- Developed a feature for order creation and tracking in a delivery management system using **Angular** and **Firebase**.

SKILLS

Programming Languages: Python, C++

Data lakehouses: Snowflake, Microsoft Fabric

Version Control: GitHub

Automation Tools: PowerShell

Cloud Tools: Kestra, Azure Databricks

Data Tools: dbt, Pyspark

Visualization Tools: PowerBI, ServiceNow

EDUCATION

Sikkim Manipal University - *B.Tech in Computer Science and Engineering*,

August 2016 - June 2020

- **9.2 CGPA**.
- Member of **ACM (Association for Computing Machinery)**.
- Member of Student Council: **Vice President**, ACCESS Council (Computer Science Dept.).

CERTIFICATIONS

- **ITIL® Foundation Certificate in IT Service Management - 2021**

Issued by AXELOS Limited

- **AZ - 900: Azure Fundamentals - 2021**

Issued by Microsoft
